

ABSTRACT

THE PARENTS' ROLE BASED ON THEIR SOCIAL STATUS IN ENHANCING THE STUDENTS' ACHIEVEMENT

(Case Study in MA Nurul Iman Tanjung Bumi Bangkalan).

Dwi Nurcahyono NIM. 09.05.2.1.1.000.66 , Thesis. Sociology Department Social and Culture Faculty. Trunojoyo University Madura.

This research is exploring about the parents' role based on their social status in enhancing the students' achievement in studying process. The researcher focuses and searches the answers how the parents' social status gives impacts to Nurul Iman Islamic students' achievement.

The reason why the researcher takes this title as the problem is that the reaseacher finds that majority students who have parents with high social status, they have great motivation in getting good score in their subjects and they are better in getting many achievements in learning teaching process.

This research is done in Nurul Iman Islamic senior high school with qualitative method. First, the researcher gives hypothesis about the parents' role in giving impact to students' achievement. Then, the researcher observes the object of the reseach (students in each class). After that, in completing and strengthen the result of research, the researcher interviews some teachers' and some students' opinion how and why the social status gives impact to students' achievement.

The result of this reseach is the parents' social status, specifically who have high social status, they give great motivation to their son/ daughter in getting good score, many achievements in their studying process. On the other word, there is a compulsion, wheter it is directly or not, the parents want their son/daughter become as them in future with having high social status. Some of the parents' motivation could be seen from giving good facilty in their son/daughter studying process, the life's good guidelines to their son/daughter how to be succesful person in future with improving the achievement in their school.

Keywords: the parents' role, social status, enhancing achievement of students
