

ABSTRACT

Shari'ah Bank is the bank that applies shari'ah principle on its business activities. Therefore, shari'ah bank has dualism control that is Bank Indonesia by DPS. After existing of OJK as regulatory and supervisory agencies, so supervision towards the bank (conventional and shari'ah) switch on that institution. The existing of supervision that is done by DPS towards Islamic banking after the establishment of OJK raises the problems that need to be done in-depth studies related to its positions of DPS after the establishment of OJK and the relationship between DPS and OJK. The method of this study is used a normative study. The approach of this study is Law Approach (*Statute Approach*). The result of this study shows that the position of DPS after switching on supervision from BI to OJK is similar as when the controlling of Islamic banking becomes the duties of BI that is the same position with DK and stays under the auspices of DSNMUI, and for monitoring mechanism between DPS and OJK is the same as that carried out by Bank Indonesia through mutual coordination between DPS and OJK in the conduct of Islamic banking supervision.

Key words: Position, Council, Supervisor, Shari'ah.
