

ABSTRACT

Udiance, Dea Lindia. *Speech Act Analysis of Navy's Instructions in Teluk Ratai 509 Indonesian Warship*. Thesis. English Department of the Faculty of Social and Cultural Sciences, Trunojoyo University. Supervisor: (I) Dr. Masduki, M.Pd (II) Diah Ikawati, S.S. M.Pd.

The study concerned with speech act used by Navy in *Teluk Ratai 509* Indonesian Warship. The objectives of this study were (1) to figure out the locutionary acts of instructions conducted by Navy in *Teluk Ratai 509* Indonesian Warship, (2) to explain the illocutionary acts of instructions conducted by Navy in *Teluk Ratai 509* Indonesian Warship, (3) to describe the perlocutionary acts of instructions conducted by Navy in *Teluk Ratai 509* Indonesian Warship. Then I only focused on the utterances which were instructed by the officer to the member.

I employed qualitative approach. To get the data, I used recording method. I recorded the conversation between the officer and the member in *Teluk Ratai 509* Indonesian Warship. The data was in the form of conversation. I limited seven conversations. I analyzed the data through some steps. They were selecting the data, focusing the data, identifying the data, describing the data, and concluding the data.

The result of the study, I found all of the answers which appeared in the statements of the problems. They were locutionary act, illocutionary act, and perlocutionary act. I took seven conversations between the officer and the member in *Teluk Ratai 509* Indonesian Warship. The result of this research was most of instructions that the officer used in *Teluk Ratai 509* Indonesian Warship tended to use directive illocutionary act to command the member. The command itself was very clear command. Thus, they used directive illocutionary act. It was because the speaker wanted the hearer to do what the speaker asked.

Key words: Analysis, Speech Act, Instructions, Navy, *Teluk Ratai 509* Indonesian Warship.
