

Siti Sa'diyah. 2025. Pengaruh Penggunaan Media *Loose Parts* terhadap Kemampuan Kerjasama Anak Kelompok B TK Permata Hati Pejagan Bangkalan. Skripsi, Program Studi Pendidikan Guru Pendidikan Anak Usia Dini, Fakultas Ilmu Pendidikan, Universitas Trunojoyo Madura. Pembimbing Angka Fitriyono, S.Pd., M.Pd.

ABSTRAK

Tujuan dari penelitian ini untuk mengetahui pengaruh media *loose parts* terhadap kemampuan kerjasama anak kelompok B TK Permata Hati Desa Pejagan, Kecamatan Bangkalan, Kabupaten Bangkalan. Penelitian ini menggunakan desain penelitian *Pre-experimental One Group Pretest Posttest Design*. Subjek penelitian ini merupakan anak usia 5-6 tahun kelompok B di TK Permata Hati Desa Pejagan, Kecamatan Bangkalan, Kabupaten Bangkalan sebanyak 30 anak. Teknik pengumpulan data melalui observasi dan dokumentasi berupa kegiatan. Uji validitas yang digunakan adalah uji validitas isi yang diperoleh hasil sebesar 85%. Uji reliabilitas menggunakan reliabilitas pengamatan yang diperoleh hasil 0,566. Tahapan pada penelitian ini yakni *pretest*, *treatment*, dan *posttest*. Uji normalitas pada penelitian ini menggunakan *uji liliefors* yang diperoleh hasil data yakni 0,477 dan data tersebut berdistribusi normal. Uji hipotesis pada penelitian ini menggunakan uji *Paired Sample T Test* yang merupakan bagian dari analisis statistik parametrik karena memenuhi persyaratan bahwa data berdistribusi normal. Berdasarkan hasil kriteria uji *Paired Sample T Test* diperoleh hasil bahwa nilai sig. (2-tailed) yakni $0,000 < 0,05$ maka dapat dikatakan H_0 ditolak dan H_a diterima, sehingga dapat diartikan bahwa terdapat pengaruh yang signifikan adanya penggunaan media *loose parts* terhadap kemampuan kerjasama anak. Berdasarkan hasil perhitungan uji *N-Gain Score* yang didapatkan dari hasil selisih *pretest* dan *posttest* sebesar 0,736. Jadi, dapat disimpulkan bahwa pengaruh penggunaan media *loose parts* terhadap kemampuan kerjasama anak sebesar 0,736 yang termasuk dalam kategori sedang.

Kata Kunci: Media *Loose Parts*, Kerjasama

Siti Sa'diyah. 2025. The Effect of Using Loose Parts Media on the Collaboration Ability of Group B Children at Permata Hati Pejagan Bangkalan. Thesis, Early Childhood Education Teacher Education Study Program, Faculty of Education, Trunojoyo University Madura. Advisor: Angga Fitriyono, S.Pd., M.Pd.

ABSTRACT

The aim of this research is to determine the effect of loose parts media on the cooperative abilities of group B children at Permata Hati Kindergarten, Pejagan Village, Bangkalan District, Bangkalan Regency. This research uses a Pre-experimental One Group Pretest Posttest Design research design. The subjects of this research were 30 children aged 5-6 years in group B at Permata Hati Kindergarten, Pejagan Village, Bangkalan District, Bangkalan Regency. Data collection techniques through observation and documentation in the form of activities. The validity test used was a content validity test which obtained results of 85%. The reliability test used the reliability of observations obtained as a result 0,566. The stages in this research were pretest, treatment and posttest. The normality test in this study used the Liliefors test which obtained data results namely 0,477 and the data was normally distributed. Hypothesis testing in this research uses the Paired Sample T Test which is part of parametric statistical analysis because it meets the requirements that the data is normally distributed. Based on the results of the Paired Sample T Test test criteria, the result was that the sig. (2-tailed), namely $0.000 < 0.05$, it can be said that H_0 is rejected and H_a is accepted, so it can be interpreted that there is a significant influence that the use of loose parts media has on children's cooperative abilities. Based on the results of the N-Gain Score test calculation obtained from the results of the difference between the pretest and posttest, it is 0,736 So, it can be concluded that the effect of using loose parts media on children's cooperation abilities is 0,736 which is included in the medium category.

Keywords: *Loose Parts Media, Collaboration*
