ABSTRAK

Penelitian ini bertujuan untuk mengetahui Pengaruh Model POE Berbantuan Media AP3 Terhadap Hasil Belajar IPA Kelas V SDN Kwanyar Barat 01 Bangkalan. Penelitian ini menggunakan metode kuantitatif dengan desain penelitian pre eksperimental jenis one group pretest posttest desing. Sampel yang digunakan pada penelitian ini sebanyak 33 siswa dengan menggunakan teknik purposive sampling. Pengumpulan data menggunakan tes, observasi, angket, dan dokumentasi. Hasil penelitian ini menunjukkan bahwa rata-rata nilai pretest 48,21 dan rata-rata post-test sebesar 77,63. Uji t dua sampel berpasangan menunjukkan bahwa ada pengaruh model POE berbantuan media AP3 terhadap hasil Belajar IPA kelas V SDN Kwanyar Barat 01 Bangkalan. hasilnya diperoleh dari nilai t_{hitung} dan t_{tabel} , di mana jika $t_{hitung} > t_{tabel}$, maka H_0 ditolak. Berdasarkan data yang diperoleh menunjukkan bahwa $t_{hitung} = 14,93283 > t_{tabel} = 1,69552$, maka H_0 diitolak yang artinya ada pengaruh model POE berbantuan media AP3 terhadap hasil Belajar IPA kelas V SDN Kwanyar Barat 01 Bangkalan.

Kata kunci: Model POE (*Predict-Observe-Explain*), Media AP3, Hasil Belajar

ABSTRACT

This study aimed to determine the effect of learning model of POE with Media AP3 assistansce towards student learning outcome in science subject in glade v at elementary school of Kwanyar Barat 01 Bangkalan. This Research used a quantitative method with pre eksperimental with te tipe of one group pretest posttest design. The samples used in this study Wet 33 students using purposive sampling technique. The data was collected using test, observe, quetionnaire, and documentation. The results of this study indicate that on average 48,21 and the post-test average is equal to 77,63. T test two pired samples shows that There is an Effect of Learning POE with Media AP3 assistansce towards student learning outcome in science subject in glade V at elementary school of Kwanyar Barat 01 Bangkalan. The result is obtaine from the valueof t_{count} and t_{table} , where if $t_{count} > t_{table}$, then H_0 is rejected. Based on the data obtained shows tha $t_{count}=14,93283 > t_{table}=1,69552$, then H_0 is rejected which means that Three is the influence of the POE model assisted by AP3 media on the student learning outcome in science subject in glade V at elementary school of Kwanyar Barat 01 bangkalan

Keywords : POE model, media AP3, learning outcomes
