

ABSTRACT

Fitria, Siti. 15.05.111.00093. *A Analysis of Registers of Farmworkers in Janteh Village*. Thesis. English Study Program of Faculty of Social and Cultural Sciences, University of Trunojoyo Madura. Advisor:

This study is focused on registers used by farmworkers of *Janteh* village. This study aims to explain the kinds of register and the factor which influence the use of registers in farmworkers of *Janteh* village.

This study used a descriptive qualitative design. The source of data in this study is the dialogue taken from four farmworkers in *Janteh* village and 1 land owner. Meanwhile, the data of this study are any words, phrases, clauses, and sentences occurring in farmworkers of *Janteh* village which contain register. The data were collected by using non-participant observation and interview. In analyzing data, the writer used interactive data analysis proposed by Miles and Huberman (1994:12).

The results showed that there are 20 data found in this study. They are classified into 5 kinds of registers. They are frozen register (0 data), formal register (0 data), consultative register (0 data), casual register (1 data) and intimate register (19 data). There are 4 factors which influence the use of registers, those are social setting (10 data), situation and purpose (10 data), addressor and addressee (0 data) and topic or subject (0 data).
