ABSTRAK

Penelitian ini bertujuan untuk mengembangkan LKPD PJOK Kelas IV Materi Pemeliharaan Kebersihan Dan Kesehatan Alat Reproduksi di UPTD SD Negeri Tanjung Jati 2 yang valid, efektif, dan menarik. Penelitian ini menggunakan model penelitian 4D (*Define, Design, Development, Dissemination*) yang dikembangkan oleh Thiagarajan, Dorothy S.Semmel dan Melvyn I. Semmel (1974). Subjek penelitian adalah 19 siswa kelas IV SD Negeri Tanjung Jati 2. Hasil penelitian menunjukkan bahwa produk LKPD PJOK Kelas IV Materi Pemeliharaan Kebersihan Dan Kesehatan Alat Reproduksi yang dikembangkan telah dinyatakan valid, efektif, dan menarik. Kevalidan produk dinilai oleh ahli bahan ajar, ahli materi, dan ahli desain pembelajaran, dengan hasil masing-masing sebesar 95% (sangat valid), 95% (valid), dan 92% (sangat valid). Keefektifan LKPD dinilai dari observasi aktivitas guru dan peserta didik serta hasil tes belajar mereka. Persentase aktivitas guru mencapai 100% dengan kategori aktif. Aktivitas peserta didik memperoleh persentase 94,7% dengan kategori aktif. Hasil tes belajar peserta didik menunjukkan bahwa persentase yang mencapai ketuntasan belajar adalah 100% dengan kategori tuntas. Kemenarikan LKPD dinilai dari angket respon guru dan peserta didik. Angket respon guru menunjukkan persentase 96,8% dengan kategori menarik. Angket respon siswa menunjukkan persentase 96,5% dengan kategori menarik.

Kata Kunci: LKPD, PJOK, Pemeliharaan Kebersihan dan Kesehatan Alat Reproduksi

Nadya Agustina Putri. 2025. Development of LKPD PJOK in Class IV Material on Maintenance of Cleanliness and Health of Reproductive Organs at UPTD SD Negeri Tanjung Jati 2. Thesis, Elementary School Teacher Education Study Program, Faculty of Teacher Training and Education, Trunojoyo University, Madura. Ana Naimatul Jannah, S.Pd., M.Pd.

ABSTRACT

This research aims to develop a valid, effective, and engaging Student Worksheets (LKPD) for Physical Education Class IV on the topic of Maintenance of Cleanliness and Health of Reproductive Organs at the Tanjung Jati 2 State Elementary School. This study employs the 4D research model (Define, Design, Development, Dissemination) developed by Thiagarajan, Dorothy S. Semmel, and Melvyn I. Semmel (1974). The subjects of the research were 19 students from Class IV of Tanjung Jati 2 State Elementary School. The results of the study indicate that the developed LKPD for Class IV on the topic of Maintenance of Cleanliness and Health of Reproductive Organs has been declared valid, effective, and engaging. The validity of the product was assessed by experts in teaching materials, subject matter, and instructional design, with validation scores of 95% (very valid), 95% (valid), and 92% (very valid) respectively. The effectiveness of the LKPD was evaluated based on observations of teacher and student activities and their learning test results. The percentage of teacher activity reached 100% with an active category. The activity of students achieved a percentage of 94.7% with an active category. The results of the students' learning tests showed that the percentage reaching mastery was 100% with a complete category. The attractiveness of the LKPD is assessed from the questionnaires of teacher and student responses. The teacher response questionnaire showed a percentage of 96.8% with an interesting category. The student response questionnaire showed a percentage of 96.5% with an interesting category.

Keywords: *LKPD, PJOK, Maintenance of Cleanliness and Health of Reproductive Tools*
