

Yuni Oktaviani, 2025. *Hubungan Antara Minat Dan Motivasi Belajar Dengan Hasil Belajar Materi Dasar Jaringan Komputer Kelas X TKJ Di SMK Al Baisuny Bangkalan*. Skripsi. Program Studi Pendidikan Informatika, Fakultas Keguruan dan Ilmu Pendidikan, Universitas Trunojoyo Madura. Pembimbing : Muchamad Arif S.Pd., M.Pd.

ABSTRAK

Keberhasilan dalam proses belajar dapat dilihat dari hasil belajar yang dicapai oleh siswa. Namun, ada beberapa faktor yang mempengaruhi rendahnya hasil belajar pada materi Dasar Jaringan Komputer kelas X TKJ di SMK Al Baisuny Bangkalan, yaitu rendahnya minat dan motivasi belajar siswa. Penelitian ini bertujuan untuk mengetahui (1) hubungan minat belajar dengan hasil belajar, (2) hubungan motivasi belajar dengan hasil belajar, (3) hubungan minat belajar dan motivasi belajar dengan hasil belajar siswa kelas X TKJ pada materi Dasar Jaringan Komputer. Penelitian ini termasuk jenis penelitian kuantitatif, populasi dalam penelitian ini adalah kelas X TKJ 1 dan kelas X TKJ 2 yang terdiri dari 44 siswa, kemudian pengambilan sampel menggunakan *non-probability sampling* jenis *sampling total*. Sampel penelitian sebanyak 44 siswa. Data diperoleh dengan cara menyebarkan kuesioner dan tes untuk mendapatkan hasil belajar siswa. Berdasarkan hasil penelitian diperoleh (1) $t_{hitung} = 6,0999 > t_{tabel} = 2,01808$ menunjukkan ada hubungan yang signifikan antara minat belajar dengan hasil belajar dengan koefisien determinasi sebesar 46,98%, (2) $t_{hitung} = 6,74953 > t_{tabel} = 2,01808$ menunjukkan ada hubungan yang signifikan antara motivasi belajar dengan hasil belajar dengan koefisien determinasi sebesar 52,03%, (3) $t_{hitung} = 33,56015 > t_{tabel} = 3,23$ menunjukkan ada hubungan yang signifikan antara minat belajar dan motivasi belajar dengan hasil belajar siswa dengan koefisien determinasi sebesar 56,82%.

Kata Kunci : Minat Belajar, Motivasi Belajar, Hasil Belajar, Dasar Jaringan Komputer

Yuni Oktaviani. 2025. *The Relationship between Interest and Motivation to Learn from the Learning Outcomes of Class X TKJ Basic Computer Network Materials at SMK Baisuny Bangkalan*. Thesis, Informatics Education Study Program, Faculty of Education, Trunojoyo Madura University. Supervisor: Muchamad Arif, S.Pd., M.Pd.

ABSTRACT

Success in the learning process can be seen from the learning outcomes achieved by students. However, there are several factors that affect the low learning outcomes in the basic computer Network material of class X TKJ at SMK Al Baisuny Bangkalan, namely the low interest and motivation of students to learn. This study aims to find out (1) the relationship between learning interest and learning outcomes, (2) the relationship between learning motivation and learning outcomes, (3) the relationship between learning interest and learning motivation and the learning outcomes of TKJ grade X students on the basic computer network material. This study is a type of quantitative research, the population in this study is class X TKJ 1 and class X TKJ 2 consisting of 44 students, then sampling using non-probability sampling type total sampling. The research sample was 44 students. Data was obtained by distributing questionnaires and tests to obtain student learning outcomes. Based on the results of the study, (1) $t_{count} = 6.0999 > t_{table} = 2.01808$ showed that there was a significant relationship between learning interest and learning outcomes with a determination coefficient of 46.98%, (2) $t_{count} = 6.74953, > t_{table} = 2.01808$ showed that there was a significant relationship between learning motivation and learning outcomes with a determination coefficient of 52.03%, (3) $t_{count} = 33.56015 > t_{table} = 3.23$ showed that there was a significant relationship between learning interest and learning motivation with student learning outcomes with a determination coefficient of 56.82%.
