

Siti Abdi Yani 2017. The role of parents in the character formation of students viewed from the level of education of parents of V grade SDN Banyuajuh 4 Kamal. Thesis, Elementary School Teacher Education Program, Education Sciences Faculty, University of Trunojoyo Madura. Advisor I Priyono Tri Febrianto S.Sos., M.Si, Advisor II : Umi Hanik S.pd., M.Pd.

ABSTRACT

This research was conducted to know the role of parents in the formation of student character in terms of parental education level. In the formation of the character of parents have a leading role in providing habits, exemplary, honesty, discipline, and other good behavior to the child. The results of this study states the role of parents as a motivator is to give gifts and spirit to the child for the spirit of learning. Parents act as supervisors are parents limit and supervise the association of children with the aim that children are not wrong friends with children who have bad behavior. Parents play a role as a guide that is guiding and accompanying children learn. Parents role as role model for child that is parent give good example to child so child can imitate good behavior from parent. Children character who is formed from the level of parent education that there are honest, discipline and likes to read character. Based on parents' education is known that the student with the elementary education level of the parents looks to have an honest character of discipline and likes to read. Students with junior high school level have not yet seen to have an honest and disciplined character but have a love to read character. Students with high school parents education have not possessed the character of discipline but have honest character and likes to read. Students with undergraduate educational level do not yet have an honest and disciplined character, but have a liking character to read.
