

Fairuz Mayhelda, Resolusi Culture Shock Pada Romantic Relationship Pasangan Berbeda Kewarganegaraan. Di bawah bimbingan Dewi Quraisyin, S.Pd.I., M.Si.

## ABSTRAK

Seiring dengan asumsi kemajuan teknologi di era modern, maka tak heran jika pada dewasa ini pernikahan dengan berbeda kewarganegaraan meningkat sangat cepat. Namun di sisi lain, banyak para pelaku pernikahan beda kewarganegaraan tidak menyadari akan adanya perbedaan budaya yang dapat menimbulkan *culture shock* terutama pada *romantic relationship* yang sedang mereka jalani. Oleh karena itu, penelitian ini dilakukan guna menjawab “bagaimana resolusi *culture shock* yang terjadi pada *romantic relationship* pasangan berbeda kewarganegaraan”.

Metode penelitian yang digunakan dalam penelitian ini adalah deskriptif kualitatif dengan melakukan pendekatan secara fenomenologi. Penelitian ini memahami secara lebih baik mengenai resolusi *culture shock* pada *romantic relationship* pasangan berbeda kewarganegaraan. Dalam penelitian ini, data diperoleh dengan metode wawancara, observasi, dan dokumentasi. Data tersebut berupa kalimat yang kemudian dianalisis dan dijabarkan berdasarkan rumusan masalah.

Hasil penelitian ini menunjukkan bahwa *culture shock* yang terjadi pada *romantic relationship* pasangan berbeda kewarganegaraan disebabkan karena ketidakmampuan mereka dalam menerima perbedaan-perbedaan seperti perbedaan bahasa, kebiasaan sehari-hari, serta sikap dan pola pikir masing-masing. *Culture shock* membawa dampak yang buruk terhadap *romantic relationship* karena dapat merusak hubungan yang harmonis. Meskipun demikian, *culture shock* dapat dilalui dengan mempertahankan sikap “pengertian” satu sama lain agar pasangan beda kewarganegaraan mampu melewati empat fase *culture shock* dengan baik.

### **ABSTRACT**

*Along with the advance technology assumption in this modern era, nowadays, the marriages with different nationalities are growing rapidly. But furthermore, many couples married with different nationalities do not realize there is cultural differences which can end up to be “culture shock” especially for their romantic relationship. Thus, this study aimed to answer the problem such as “how does the resolution of culture shock on romantic relationship between the couples with different nationalities”.*

*The research method of this study is descriptive qualitative by using Phenomenology Approach. This study aimed to make a best “understanding” of the culture shock resolution on romantic relationship between the couples with different nationalities. In this study, the data is collected by using methods of interviews, observation, and documentation. Those data are form of sentences which were analized and elaborated according to the problem formulation.*

*The result of this study showed that the culture shock on romantic relationship between the couples with different nationalities happened because of their inability to accept the differences of their languages, habits, attitudes and the mindsets of each other. Culture shock definitely created a bad impact on romantic relationship due to it is able to break a harmonious relationship. However, the culture shock can be handled by maintaining the sense of understanding each other, so that, the couples with different nationalities will go through the four phases of culture shock well.*
