ABSTRACT

Anas Tania Nurfianni, 160221100005. *The Influence of Community Participation, Village Officials Competence, Headman Leadership, and Village Government Organizational Commitment on Village Fund Management Accountability (Empirical Study in Sumobito District, Jombang Regency)*. Under the guidance of Ardi Hamzah, S.E., MSi., Ak.

This research aims to examine the effect of community participation, the competence of village officials, leadership of headman, and the commitment of village government organizations to the accountability of village fund managers in Sumobito District, Jombang Regency. This type of research is a quantitative research survey method using a questionnaire.

This research uses non-probability sampling methods and data analysis techniques using multiple linear regression which is processed with SPSS 23 software. The samples used were 36 respondents who met the criteria using the Slovin formula.

The results of this research indicate that community participation, competence of village officials, leadership of headman, and commitment of village government organizations influence the accountability of village fund management.

Keywords: *community participation, competence of village officials, leadership of headman, commitment of village government organizations and accountability of village fund management.*
