

Ayu Sholihah 2023. *Pengembangan Media video Pembelajaran Tema 4 Subtema 3 Kelas III*. Skripsi, Program Studi Pendidikan Guru Sekolah Dasar, Fakultas Ilmu Pendidikan, Universitas Trunojoyo Madura. Pembimbing: Ade Cyntia Pritasari, S.Pd., M.Pd

ABSTRAK

Tujuan penelitian pengembangan ini yaitu (1) Untuk mengetahui kevalidan pembelajaran tema 4 subtema 3 kelas III, (2) Untuk mengetahui keefektifan pembelajaran tema 4 subtema 3 kelas III yang dilihat dari hasil lembar observasi aktivitas guru, lembar observasi aktivitas siswa, hasil belajar siswa, dan lembar observasi penilaian (3) Untuk mengetahui kemenarikan pembelajaran tema 4 subtema 3 kelas III yang dilihat dari angket respon guru dan angket respon siswa. Penelitian ini menggunakan metode penelitian dan Research and Development (R&D) dengan model penelitian ADDIE. Penelitian ini dilakukan pada kelas III dengan jumlah 25 siswa. Berdasarkan data yang diperoleh peneliti, pada kevalidan media pembelajaran memperoleh presentase 80% dengan kategori valid. Keefektifan diukur berdasarkan hasil observasi aktivitas guru dan aktivitas siswa. Pada uji coba kelompok kecil hasil observasi aktivitas guru mendapatkan presentasi 95% dan hasil aktivitas siswa mendapat presentase 93% dengan kategori sangat efektif. 100% untuk hasil ketuntasan klasikal dari hasil belajar siswa. Pada uji coba kelompok besar hasil observasi aktivitas guru mendapatkan presentase 95%, hasil observasi aktivitas siswa mendapatkan presentase 92,5% dengan kategori sangat efektif dan hasil tes belajar kognitif siswa mendapatkan presentase 90% dinyatakan tuntas. Kemenarikan diukur berdasarkan hasil angket respon kelompok kecil dan kelompok besar yang mendapatkan hasil presentase 95% dengan kategori sangat menarik. Hasil angket respon siswa dengan presentase menunjukkan 95% dengan kategori sangat menarik.

Ayu Sholihah 2023. *Development of Learning Videos Media Theme 4 Sub-theme 3 Class III*. Thesis, Elementary School Teacher Education Study Program, Faculty of Education, Trunojoyo University, Madura. Advisor: Ade Cyntia Pritasari, S.Pd., M.Pd

ABSTRACT

The purposes of this development research are (1) To find out the validity of the learning video media for the theme 4 sub-theme 3 class III, (2) To find out the effectiveness of the learning video media for the theme 4 sub-theme 3 class III as seen from the results of teacher activity observation sheets, student activity observation sheets, student learning outcomes, and curiosity character education assessment observation sheet (3) To find out the attractiveness of the learning video media for theme 4 sub-theme 3 class III as seen from the teacher's response questionnaire and student response questionnaire. This study used the Research and Development (R&D) research and development method with the ADDIE research model. This research was conducted in class III with a total of 25 students. Based on the data obtained by the researcher, the validity of the learning media obtained a percentage of 80% in the valid category. Effectiveness is measured based on the results of observations of teacher activity and student activity. In the small group trial, the results of observing teacher activity got a presentation of 95% and the results of student activities got a percentage of 93% with a very effective category. 100% for classical completeness results from student learning outcomes. In the large group trial the results of observations of teacher activity got a percentage of 95%, the results of observations of student activities got a percentage of 92.5% with a very effective category and the results of students' cognitive learning tests got a percentage of 90% declared complete. Attractiveness is measured based on the results of the small group response questionnaire and the large group which gets the results of a 95% percentage with a very attractive category. The results of the student response questionnaire with a percentage showing 95% with a very interesting category.
