ABSTRAK

Berpikir kritis salah satu aspek perkembangan anak yang penting untuk dikembangkan agar melatih pengetahuan anak. Penelitian ini bertujuan untuk mengembangkan media *Pop Up Book Tour* pantai biru berbasis audio untuk menstimulasi berpikir kritis anak. Penelitian ini menggunakan model pengembangan Borg & Gall dengan 10 tahapan antara lain, *research information collection, planning, develop preliminary from of product, preliminary field testing, main product revision, main field testing, operation product revision, operational field testing, final product revision, dissemination and implementation*. Penelitian pengembangan ini dilakukan di TK Kartika IV-89 Bangkalan pada anak usia 5-6 tahun dengan melibatkan 36 anak. Teknik pengumpulan data menggunakan angket (angket ahli materi, ahli media, dan angket respon anak). Hasil penelitian dan pengembangan ini menunjukkan bahwa nilai yang diperoleh media *Pop Up Book Tour* pantai biru dari ahli materi sebesar 87,5% dengan kategori “Sangat Tinggi, Sangat Layak Tidak Perlu Revisi”. Uji coba ahli media sebesar 81,25% dengan kategori “Tinggi, Layak Tidak Perlu Revisi”. Berdasarkan hasil uji coba yang telah dilakukan dapat disimpulkan bahwa pengembangan media *Pop Up Book Tour* pantai biru berbasis hak rekreasi untuk menstimulasi berpikir kritis layak digunakan. Pada uji efektivitas media *Pop Up Book Tour* pantai biru diperoleh hasil $t_{hitung} > t_{tabel}$ yaitu $10,640 > 2,00856$ sehingga H_0 diterima H_0 ditolak. Maka dapat disimpulkan terdapat perbedaan rata-rata skor kemampuan berpikir kritis sebelum dan sesudah menggunakan media *Pop Up Book Tour* pantai biru. Diharapkan penelitian ini dapat menambah pengetahuan bagi khalayak umum.

Kata Kunci : Media Pembelajaran, Hak Rekreasi, Berpikir Kritis

Ria Kusuma Wardani. 2023. *Development of Audio Based Blue Beach Pop Up Book Tour to Stimulate Children's Critical Thingking*. Thesis, Early Childhood Education Teacher Education Study Program, Faculty of Education, Trunojoyo University Madura.

Abstract

Critical thinking is an aspect of child development that is important to develop in order to train children's knowledge. This study aims to develop a audio based blue beach Pop Up Book Tour media to stimulate children's critical thinking. This research uses the Borg and Gall development model with 10 stages including research information collection, planning, develop preliminary from of product, preliminary field testing, main product revision, main field testing, operation product revision, operational field testing, final product revision, dissemination and implementation. This development research was conducted at TK Kartika IV-89 Bangkalan in children aged 5-6 years involving 36 children. Media Pop Up Book Tour blue beach from material experts of 87,5% in the category "Very High, Very Eligible No Need for Revision media expert trial of 81,25% in the category "High, Deserves No Need to Rev Based on the results og trials that have been carried out it can be concluded that the development of the blue beach Pop Up Book Tour media based on recreational rights to stimulate critical thinking is feasible to use. In teasting the effectiveness of the blue beach Pop Up Book Tour media, the results obtained are 1 count > t table, namely $10,640 > 2,00856$ so that H_a is accepted H_o is rejected. So it can be it can concluded that there is a difference in the average score of critical thinking skills before and after using the blue beach Pop Up Book Tour media. It is hoped that this research can increase knowledge for the general public.

Keywords : Learning Media, Recreation Rights, Critical Thingking
