

ABSTRAK

Ummi'ul Husna, Profitabilitas, *Leverage*, *Fee Based Income*, dan Likuiditas terhadap *Earning Per Share* pada Bank Umum Syariah di Indonesia Periode 2015-2019. Dibawah bimbingan Anis Wulandari, S.E., MSA., Ak., CA.

Tujuan dari penelitian ini adalah untuk mengetahui pengaruh Profitabilitas (*Return On Equity*), *Leverage (Debt to Equity Ratio)*, *Fee Based Income*, dan Likuiditas (*Current Ratio*) terhadap *Earning Per Share* (EPS). Penelitian ini menggunakan pendekatan kuantitatif. Populasi dalam penelitian ini adalah Bank Umum Syariah yang terdaftar di BI tahun 2015-2019 sebanyak 14 bank. Pengambilan sampel menggunakan teknik *purposive sampling* dan dianalisis menggunakan uji regresi linear berganda. Sampel yang diperoleh dari penelitian ini sebanyak 10 bank. Hasil penelitian menunjukkan bahwa variabel Profitabilitas (*Return On Equity*), dan *Fee Based Income* berpengaruh terhadap *Earning Per Share* (EPS), sedangkan variabel *Leverage (Debt to Equity Ratio)*, dan Likuiditas (*Current Ratio*) tidak berpengaruh terhadap *Earning Per Share* (EPS).

Kata Kunci: Profitabilitas (*Return On Equity*), *Leverage (Debt to Equity Ratio)*, *Fee Based Income*, dan Likuiditas (*Current Ratio*), *Earning Per Share* (EPS).

ABSTRACT

Ummi'ul Husna, *Profitability, Leverage, Fee Based Income, and Liquidity on Earnings Per Share on Islamic Commercial Banks in Indonesia for the 2015-2019. Under the Guidance of Anis Wulandari, S.E., MSA., Ak., CA.*

The Purpose of this research was to determine the effect of Profitability (Return On Equity), Leverage (Debt to Equity Ratio), Fee Based Income, and Liquidity (Current Ratio) on Earnings Per Share (EPS). This research used a quantitative approach. The Population in this research were 14 Banks companies listed on the BI in 2015-2019. This research used purposive sampling method and analyzed using multiple linear regression test. The samples obtained from this research were 10 Banks. The results showed that the variable profitability (Return On Equity) and Fee Based Income had an effect on Earnings Per Share (EPS), while the variable Leverage (Debt to Equity Ratio) and Liquidity (Current Ratio) had no effect on Earnings Per Share (EPS)

Keywords: Profitability (Return On Equity), Leverage (Debt to Equity Ratio), Fee Based Income, Liquidity (Current Ratio), and Earnings Per Share (EPS)
