ABSTRAK

Penelitian ini dilatarbelakangi oleh kurangnya penggunaan media pembelajaran yang kurang maksimal. Tujuan penelitian ini untuk mengetahui kemampuan menulis teks fabel siswa kelas VII dan pengaruh media pembelajaran film animasi “Pada Zaman Dahulu: Ayam dan Semut” terhadap keterampilan menulis teks fabel siswa kelas VII SMP Ad-damanhuri. Penelitian ini menggunakan metode kuantitatif dengan desain *quasi eksperimen* berbentuk *nonequivalent control group design*. Hasil kemampuan belajar siswa diperoleh dari nilai *pretest* dan *posttest*. Hasil *pretest* kelompok kontrol dengan nilai rata-rata sebesar 66, sedangkan pada kelompok eksperimen nilai rata-rata diperoleh sebesar 66. Kemudian untuk hasil nilai rata-rata *posttest* kelompok kontrol diperoleh 70 dan kelompok eksperimen diperoleh 76. pemerolehan nilai hasil kemampuan belajar siswa kemudian diuji menggunakan uji hipotesis untuk melihat pengaruh penggunaan media film animasi yang memperoleh nilai signifikan <0.05 yaitu 0.009. Dengan demikian dapat disimpulkan bahwa, terdapat pengaruh yang signifikan terhadap penggunaan media film animasi terhadap keterampilan menceritakan kembali siswa kelas VII SMP Ad-Damanhuri.

ABSTRACT

This research is motivated by the lack of use of instructional media that is less than optional. The purpose of this study was to determine the ability to write fable texts of class VII students and the effect of the animated film "In ancient times the chickens and ants" on the skills of retelling fables of class VII students of SMP Ad-Damanhuri. This study used a quantitative method with a quasi-experimental design in the form of a nonequivalent control group design. The results of students' learning abilities were obtained from pretest and posttest scores. The pretest results for the control group with an average score of 66, while in the experimental group the average was 66. Then for the posttest results the average score for the control group was obtained 70 and the experimental group obtained 76. From these values the results of learning abilities were then tested using hypothesis testing to see the effect of using animated film media and obtained a significant value of <0.05 , namely 0.009. Thus it can be concluded that there is a significant influence on the use of animated films media on retelling skills of class VII students of SMP Ad-Damanhuri.
