

## Abstrak

Penelitian ini bertujuan untuk menganalisis bagaimana pengaruh Alokasi Dana Desa (ADD) dan Dana Desa (DD) terhadap tingkat Kemiskinan di Kecamatan Tembelang Kabupaten Jombang tahun 2015-2019. Penelitian ini menggunakan metode kuantitatif dan menggunakan data sekunder yang berjenis data panel, yaitu perpaduan antara data *time series* dan data *cross section*. Data tersebut dianalisis menggunakan uji asumsi klasik, analisis regresi linier berganda dan uji hipotesis dengan Alokasi Dana Desa (X1) Dana Desa (X2) Pendapatan Asli Desa (X3) dan Kemiskinan (Y) dengan bantuan program Eviews 9.

Hasil regresi data panel menggunakan model terpilih adalah *Random Effect Model*. Hasil penelitian menunjukkan bahwa secara parsial (Uji t) alokasi dana desa tidak berpengaruh signifikan terhadap tingkat kemiskinan di Kecamatan Tembelang Kabupaten Jombang. Dan dana desa tidak berpengaruh signifikan terhadap tingkat kemiskinan di Kecamatan Tembelang Kabupaten Jombang. Sedangkan pendapatan asli desa juga tidak berpengaruh signifikan terhadap tingkat kemiskinan di Kecamatan Tembelang Kabupaten Jombang. Secara simultan (Uji F) alokasi dana desa, dana desa dan pendapatan asli desa tidak berpengaruh signifikan terhadap tingkat kemiskinan di Kecamatan Tembelang Kabupaten Jombang.

**Kata Kunci :** *Alokasi Dana Desa, Dana Desa, Pendapatan Asli Desa, Tingkat Kemiskinan*

## Abstract

This study aims to analyze how the influence of Allocation of Village Funds and Village Funds on the level of poverty in Tembelang District, Jombang Regency in 2015-2019. This study uses quantitative methods and uses secondary data in the type of panel data, which is a combination of time series data and cross section data. The data were analyzed using the classical assumption test, multiple linear regression analysis and hypothesis testing with Allocation of Village Funds (X1) and Village Funds (X2) Village original income (X3) and Poverty (Y) with the help of the Eviews 9 program.

The result of panel data regression using the selected model is the Random Effect Model. The results showed that partially (t-test) the allocation of village funds had no significant effect on the poverty level in Tembelang District, Jombang Regency. And village funds had no significant effect on the poverty level in Tembelang District, Jombang Regency. Meanwhile, Village original income too have a significant effect on the level of poverty in Tembelang District, Jombang Regency. Simultaneously (F-test) the allocation of village funds, village funds and village original income had no significant effect on the poverty level in Tembelang District, Jombang Regency.

**Key Words:** *Allocation of Village Funds, Village Funds, Village Original Income The Level of Poverty*
