

ABSTRAK

Siti Nurul Rohmatin.140521100044. Program Studi Sosiologi. Fakultas Ilmu Sosial dan Ilmu Budaya. Universitas Trunojoyo Madura. “ AKSEPTOR KB VASEKTOMI” (Studi Fenomenologi Alasan Pria Menggunakan KB Vasektomi di Kecamatan Kudu, Kabupaten Jombang).

Partisipasi pria dalam pogram KB tergolong rendah, terkhusus untuk KB vasektomi. Namun berbeda untuk pria/suami di wilayah Kudu bertekad menggantikan posisi istrinya yang tidak bisa ikut KB. Sehingga penelitian bertujuan untuk mengetahui, apa alasan pria menjadi akseptor KB vasektomi. Di penelitian ini akan dijelaskan tentang alasan pria bersedia ikut KB vasektomi, syarat-syarat menjadi akseptor, proses KB, manfaat dan kelemahan KB vasektomi. Subjek penelitian disini adalah warga dari wilayah Kecamatan Kudu yang telah menjadi akseptor.

Metode yang digunakan dala penelitian ini adalah penelitian kualitatif. Pengumpulan data menggunakan observasi *non participant* dan wawancara serta dokumentasi. Informan dipilih dengan menggunakan metode *purposive sampling*. Analisis data menggunakan teknik Miles dan Huberman. Teknik pemeriksaan keabsahan data menggunakan triangulasi sumber.

Hasil penelitian menunjukkan bahwa, pria memutuskan menggunakan KB vasektomi bukan perkara yang mudah adanya suatu pertimbangan dan pemikiran. Penelitian ini juga menunjukkan bahwa alasan pria menggunakan KB antara lain jumlah anak banyak, istri tidak cocok KB karena sakit, kesadaran pribadi, kondisi ekonomi dan dorongan istri (uji coba). Selain memiliki tujuan serta alasan seperti itu, suami juga merasa kasihan (iba) melihat istrinya sakit karena tidak cocok menggunakan alat kontrasepsi sehingga mereka bertekad untuk menggantikan posisi istri yang tidak bisat KB dan tidak sanggup KB karena sakit (sesak nafas, darah tinggi, gangguan hormon, serta meminimalisir obat-obatan yang masuk ke tubuh istri sehingga istri sehat dan keluarga bahagia. Karena bagi suami/pria keluarga adalah hal terpenting.

Kata kunci : Akseptor, KB, Vasektomi, Alasan, Pria.

ABSTRACT

Siti Nurul Rohmatin. 140521100044. Sociology Study Program. Faculty of Social and Cultural Sciences of Trunojoyo Madura. "Acceptor of KB Vasectomy" (phenomenology study the reasons some man are using KB Vasectomy in Kudu district, Jombang Regency).

The man participation on using KB program still low, especially for using KB Vasectomy. But it is different with some man or some husband in Kudu district, they determined to replace his wife to who cannot following the KB program. So that, this research aimed to know what are the reasons for the man willing to be an acceptor of KB Vasectomy, the terms of their conditions to be an acceptor, KB process, the positive and the weakness of using KB Vasectomy. The subject on this research are some nitizen from Kudu District who had been be a an acceptor.

This research using Qualitative research. The technique of collecting data, this research using non participant observation, interview and also make a documentation. This research using Miles and Hubermen in Technique of analyzing data. The inspection technique of data triangulation, this research using the source of triangulation.

This research resulted: some man actually decided using KB Vasectomy it is not easy for them, there are many consideration. This reserach showed that the reasons for some man using KB Vasectomy are: the number of their children a lot, his wife cannot following the KB program caused by her condition are in sick condition, the man consciousness about KB, their economy condition and command from his wife. Beside the reasons above, some husband feeling pity to his wife when his wife must following KB program in her sick condition such as: out of breath, hipertensy, hormon's condition, also minimize the pill that used on his wife, so that his wife body will healthy Because for some man Family is his priority.

Key words : Acceptors, KB, Vasectomy, Reason, Man.
