

ABSTRACT

Chindy Ayu Octaviana, The Effect of Village Funds, Village Fund Allocation, and Village Original Income on the Developing Village Index in Jombang Regency. Under the guidance of Selamat Joko Utomo, S.E., M.E.

Village development aims to improve the welfare of village communities and the quality of human life. Village development is carried out as an intervention to reduce the gap in progress between urban and rural areas. The aim of this research is to determine the influence of village funds, village fund allocation, and village original income on the village development index in Jombang Regency in 302 villages for the 2019-2023 period. This research is quantitative in nature using panel data regression research techniques with a fixed effect model approach. The research results show that village funds have a positive and significant effect on the village development index in Jombang Regency. Meanwhile, village fund allocation has a negative and significant effect on the village development index in Jombang Regency. And the village's original income has a positive and significant effect on the village development index in Jombang Regency. The larger the village funds obtained, the greater the development that can be achieved in improving the welfare of the community. The allocation of village funds does not directly have an impact on village development. And the higher the village's original income, the less dependent it will be on transfer funds and will have an impact on village development.

ABSTRAK

Chindy Ayu Octaviana, Pengaruh Dana Desa, Alokasi Dana Desa, dan Pendapatan Asli Desa Terhadap Indeks Desa Membangun di Kabupaten Jombang. Dibawah bimbingan Selamat Joko Utomo, S.E., M.E.

Pembangunan desa bertujuan untuk meningkatkan kesejahteraan masyarakat desa dan kualitas hidup manusia. Pembangunan desa dilakukan dalam rangka intervensi untuk mengurangi kesenjangan kemajuan antara wilayah perkotaan dan pedesaan. Tujuan dalam penelitian ini untuk mengetahui pengaruh dana desa, alokasi dana desa, dan pendapatan asli desa terhadap indeks desa membangun di Kabupaten Jombang pada 302 desa periode 2019-2023. Penelitian ini bersifat kuantitatif dengan menggunakan Teknik penelitian regresi data panel dengan pendekatan fixed effect model. Hasil penelitian menunjukkan bahwa dana desa berpengaruh positif dan signifikan terhadap indeks desa membangun di Kabupaten Jombang. Sementara itu, alokasi dana desa berpengaruh negative dan signifikan terhadap indeks desa membangun di Kabupaten Jombang. Dan Pendapatan asli desa berpengaruh positif dan signifikan terhadap indeks desa membangun di Kabupaten Jombang. Semakin besar dana desa yang diperoleh maka semakin besar pula pembangunan yang dapat dicapai dalam meningkatkan kesejahteraan masyarakat. Alokasi dana desa tidak secara langsung memiliki dampak terhadap pembangunan desa. Dan semakin tinggi pendapatan asli desa maka semakin berkurang juga ketergantungan terhadap dana transfer dan akan berdampak pada pembangunan desa.
