

Nur Alafiya. 2022. *Pengembangan Lembar Kerja Siswa (LKS) Berkarakter Peduli Lingkungan Pada Materi Pencemaran Lingkungan*. Program Studi Pendidikan IPA, Fakultas Ilmu Pendidikan, Universitas Trunojoyo Madura. Pembimbing . Wiwin Puspita Hadi

ABSTRAK

Penelitian yang dilakukan ini bertujuan untuk penggunaan media lembar kerja siswa (LKS) berkarakter peduli lingkungan pada materi pencemaran lingkungan terhadap siswa kelas VII MTs Al Falah. Model pengembangan yang digunakan adalah model pengembangan ADDIE. Pengembangan LKS menggunakan dapat membantu peserta didik dalam mengetahui beberapa pencemaran yang terjadi di lingkungan sekitar sehingga diharapkan siswa dapat memahami konsep materi serta menumbuhkan karakter peduli lingkungan. Populasi siswa kelas VII tahun ajaran 2021/2022. Teknik pengumpulan data menggunakan angket media, angket materi serta angket respons siswa dan hasil yang di peroleh menggunakan rumus presentase. Pada angket media mendapatkan nilai rata-rata 73,33% dan reabilitas mempunyai nilai 90,57% sehingga mendapatkan kriteria penilaian cukup valid (**layak di gunakan**) dan sangat variabel, angket materi nilai rata-rata 69,38% dan reabilitasnya 90,57% dan sehingga mendapatkan kriteria penilaian cukup valid (**Layak di gunakan**) dan sangat variabel serta hasil yang di dapatkan pada angket siswa mendapat nilai rata-rata 89,9% dan mempunyai kriteria sangat tinggi. Hasil kesimpulan di atas bahwa lembar kerja siswa (LKS) berkarakter peduli lingkungan layak di gunakan serta siswa bisa digunakan di sekolah.

Nur Alafiya. 2022. *Development of Student Worksheets (LKS) with Environmentally Concerned Characters on Environmental Pollution Materials*. Science Education Study Program, Faculty of Education, Trunojoyo University, Madura. Advisor . Wiwin Puspita Hadi

ABSTRACT

*The purpose of this research is to use student worksheet media (LKS) with the character of caring for the environment on environmental pollution material for seventh grade students of MTs Al Falah. The development model used is ADDIE model. LKS development can help students in knowing some of the pollution that occurs in the surrounding environment so that students are expected to understand the concept of the material and grow the character of caring for the environment. The population of class VII students for the 2021/2022 academic year. Data collection techniques using media questionnaires, material questionnaires and student response questionnaires and the results obtained using the percentage formula. In the media questionnaire, the average value is 73.33% and reliability has a value of 90.57% so that the assessment criteria are quite valid (**worth using**) and very variable, the average value of the material questionnaire is 69.38% and the reliability is 90.57% and so getting the assessment criteria is quite valid (**worth using**) and very variable and the results obtained in the student questionnaire get an average value of 89, 9% and has very high criteria. The results of the conclusions above that student worksheets (LKS) with environmental care character are suitable for use and students can use them at school.*

Keywords: LKS, environmental care character, ADDIE Model.
