Penelitian ini bertujuan untuk mengetahui dan memahami secara mendalam bagaimana pengelolaan keuangan sebuah partai politik serta penafsiran tentang laporan keuangan yang mereka buat. Penelitian ini dilakukan di Partai Politik “Hitam Putih” dengan informan pihak internal partai dan eksternal (Bakesbangpol dan BPKAD).

Melalui metode kualitatif deskriptif, ditemukan bahwa tafsir laporan keuangan yang dibuat oleh para narasumber terkait hanya sebatas cukup-cukup saja. Pemakna tersirat dari sebuah pemaknaan tersebut, bahwa pengelolaan keuangan mereka dapat dikatakan cukup jika mereka pandai memutar otak. Artinya nominal dana penerimaan yang mereka peroleh harus disesuaikan dengan aktifitas partai ini. Di sisi lain wajah pengelolaan keuangan partai politik menyeruak dengan adanya miss communication antara pengurus partai dengan beberapa anggota, adanya sistem gali lobang tutup lobang yang masih dipakai, dan masih lemahnya transparansi partai baik ke anggotanya sendiri maupun khalayak umum.

Kata kunci: partai politik, pengelolaan keuangan, dan kualitatif deskriptif

ABSTRACT

Yunita Ella Vianna. Financial Management of Political Parties: system closes the hole dig a hole, Luxurious And Classy, even lack of transparency still envelop !. Under the guidance of Rahmat Zuhdi, SE., MSA., Ak., QIA., CA and Achdiar Redy Setiawan, SE., MSA., Ak.,CA

This study aims to identify and understand in depth how the financial management of a political party as well as the interpretation of financial statements that they make. This research was conducted in Political Parties "Black and White" with the informant internal and external parties (Bakesbangpol and BPKAD).

Through descriptive qualitative method, it was found that the interpretation of financial statements prepared by the speakers linked only to the extent sufficient-enough alone. Signifying implied from such a meaning, that their financial management can be said to be sufficient if they are good at turning brain. This means that nominal admission funds they received to must be tailored to the activities of this party. On the other side face of the financial management of political parties pushed by the miss communication between party officials by some members, the system closes the hole dig a hole that is still used, and is still a lack of transparency both to members of its own party and the general public.
