

Aulia Hana Erisafitri. 2024. Pengembangan E-Modul Interaktif Berbasis Flip PDF Corporate Pada Materi Teks Ulasan Siswa Kelas VIII. Skripsi, Program Studi Pendidikan Bahasa dan Sastra Indonesia, Fakultas Ilmu Pendidikan, Universitas Trunojoyo Madura. Pembimbing: Dr. Ira Fatmawati, S.S., M.Pd.

ABSTRAK

Penelitian ini berisi tentang pengembangan e-modul berbasis flip PDF corporate pada materi teks ulasan siswa kelas VIII. Adanya permasalahan dan kebutuhan bahan ajar digital di SMP YPI Darussalam 1 Cerme menjadi dasar penelitian ini dilakukan. Penelitian ini bertujuan untuk mengembangkan dan mengetahui kelayakan e-modul interaktif berbasis Flip PDF Corporate pada materi teks ulasan kelas VIII. Metode penelitian ini ialah *research and development* (R&D) menggunakan model *Borg and Gall* yang terdiri atas 10 tahap. Namun, dalam penelitian ini disederhanakan menjadi tujuh tahap. Pengembangan model *Borg and Gall* yang digunakan dalam penelitian ini, yaitu identifikasi masalah, pengumpulan informasi, desain produk, validasi desain, revisi desain, uji coba produk, dan revisi produk. Hasil penelitian menunjukkan bahwa e-modul interaktif yang dikembangkan termasuk dalam kategori sangat layak berdasarkan hasil validasi berupa penilaian oleh validator isi, bahasa, penyajian, kegrafikan, praktisi guru, dan uji coba pada siswa. Penilaian oleh para validator ahli mendapat presentase rata-rata kelayakan sebesar 92%, termasuk dalam kategori sangat layak. Sementara itu, hasil uji coba pada siswa menunjukkan nilai rata-rata 94%, termasuk dalam kategori sangat layak. Data tersebut menunjukkan bahwa e-modul interaktif pada materi teks ulasan kelas VIII layak digunakan dalam pembelajaran.

Kata kunci: pengembangan e-modul, flip PDF corporate, teks ulasan

Aulia Hana Erisafitri. 2024. *Development Interactive E-Module Based on Flip PDF Corporate of Review Text Eight Grade Student*. Thesis, Indonesian Language and Literature Education Study Program, Faculty of Education, University of Trunojoyo Madura. Advisor: Dr. Ira Fatmawati, S.S, M.Pd.

ABSTRACT

This research is about development of interactive electronic module based on flip PDF corporate of review text eight grade student. There is a problem and needed of digital teaching materials in SMP YPI Darussalam 1 Cerme became the basis for this research. The purpose of this research is developing and knowing feasibility the interactive e-module based on flip PDF corporate of review text eight grade student. This method is research and development (R&D) adopted by Borg and Gall design which consist of 10 steps. But, in this research is simplified to 7 steps. There are seven steps of Borg and Gall. design, identify the problem, compiling of information, product design, validation design, revision design, trial the product, and revision product. The result of the research indicate that development interactive e-module is very worthy based on validation in the form of an assessment by an expert validator fill, language, graphics, appearance, teacher practitioners, and user assessment by students. Validation by expert acquire score average 92%, it's mean very feasible. Meanwhile, the result of trial the product for student acquire score average 94% it's mean very feasible. The data suggests that this interactive e-module is of review text eight grade student worthy for use in learning process.

Keywords: *e-module development, flip PDF corporate, review text*
