ABSTRACT

The aims of this research are to (1) Develop a Pop Up Book of fable story material for class II students at UPTD SDN Demangan 1 Bangkalan that is valid, (2) Develop an interesting Pop Up Book of fable story material for class II students at UPTD SDN Demangan 1 Bangkalan, (3) Developing an effective Pop Up Book of fable story material for class II students at UPTD SDN Demangan 1 Bangkalan. This development research uses the Borg & Gall model. The research was conducted at UPTD SDN Demangan 1 Bangkalan with a sample of 33 students from class II. Based on the results of the research conducted, the validity percentage obtained from several experts included material experts at 85%, media experts at 91%, language experts at 96%, and learning design experts at 85%. The results of the four experts were then calculated using an average formula to produce a percentage of 89%. This percentage is categorized as very valid and usable. The attractiveness of the media is obtained from the results of teacher and student response questionnaires on product trials and usage. The results of the product trial teacher response questionnaire were 92% and the student response questionnaire was 89% with an average result of 91%. Then the results of the teacher response questionnaire for trial use were 100% and the student response questionnaire was 95% with an average result of 98%. So this presentation is quite interesting. Effectiveness is obtained from the student learning classic score of 91 with 100% of students reaching the completion criteria. From this percentage it can be concluded that this media is very effective to use. Based on the research results, the Pop Up Book is valid, interesting and effective for use with second grade elementary school students.
