

Abstrak

Penelitian ini bertujuan untuk mengetahui keterlaksanaan pembelajaran dengan model *generative learning* dan *experiential learning*. Penelitian ini dilaksanakan di SMP N 1 Sidayu, Gresik dengan populasi semua siswa kelas VIII tahun ajaran 2018/2019. Teknik pengambilan sampel menggunakan *cluster random sampling*. Sampel penelitian sebanyak 2 kelas. Pengumpulan data menggunakan lembar observasi keterlaksanaan pembelajaran. Berdasarkan hasil penelitian dapat disimpulkan bahwa: Keterlaksanaan pembelajaran secara keseluruhan sudah sangat baik dengan persentase 97,8% pada model *generative learning* dan 98,3% pada model *experiential learning*.

Kata Kunci: *experiential learning, generative learning, keterlaksanaan pembelajaran*

Abstract

The aims of this research were to know the implementation of learning by using generative learning model and experiential learning model. This research was conducted at SMP N 1 Sidayu Gresik. The population was all the eighth-grade students in academic year of 2018/2019. The employed sampling technique was cluster random sampling. The sampling consist of 2 classes. Technique of collecting data used observation sheet for learning activity. Based on the result of this research, it can be concluded that: the implementation of learning by using generative learning and experiential learning model give very good criteria with the percentage of generative learning model is 97,8% and the percentage of experiential learning model is 98,3%.

Kata Kunci: *experiential learning, generative learning, implementation of learning*
