

RINGKASAN

Penelitian ini menganalisis model pengelolaan ekonomi pesantren dalam mewujudkan kemandirian ekonomi di pondok pesantren Tanwirul Islam. Penelitian ini bertujuan untuk mengetahui model pengelolaan ekonomi pesantren yang diterapkan di Pondok Pesantren Tanwirul Islam Sampang dengan menggunakan metode kualitatif dengan pendekatan analisis deskriptif. Data dikumpulkan melalui wawancara mendalam dan observasi partisipatif. Hasil penelitian menunjukkan bahwa Pondok Pesantren Tanwirul Islam menerapkan model pengelolaan ekonomi berupa model pengembangan ekonomi berbasis prosedural yang melibatkan santri melalui kurikulum kewirausahaan, pelatihan praktisi, serta kerjasama dengan masyarakat sekitar. Dalam konteks kemandirian ekonomi, Pondok Pesantren Tanwirul Islam telah menunjukkan upaya signifikan dalam mencapai kemandirian ekonomi. Pesantren ini menghindari hutang konsumtif, memiliki keyakinan kuat dalam menjalankan usaha, serta mengelola berbagai unit usaha sebagai bentuk investasi jangka panjang. Meski pengelolaan arus kas masih menjadi tantangan, pesantren terus berupaya meningkatkan pengelolaan keuangan dan melibatkan SDM internal serta masyarakat sekitar. Selain itu, pesantren menunjukkan kesiapan mental yang kuat dalam menghadapi tantangan finansial dengan terus berinovasi dan mencari solusi untuk mendukung keberlanjutan ekonomi pesantren.

Kata Kunci: Ekonomi Pesantren, Model Pengembangan Ekonomi, Kemandirian Ekonomi.

SUMMARY

This study analyzes the economic management model of Islamic boarding schools in realizing economic independence in Tanwirul Islam Islamic boarding schools. This study aims to determine the economic management model of the pesantren applied in the Tanwirul Islamic Islamic Boarding School Sampang by using a qualitative method with a descriptive analysis approach. Data were collected through in-depth interviews and participatory observations. The results of the study show that the Tanwirul Islam Islamic Boarding School implements an economic management model in the form of a procedural-based economic development model involving students through an entrepreneurship curriculum, practitioner training, and cooperation with the surrounding community. In the context of economic independence, the Tanwirul Islam Islamic Boarding School has shown significant efforts in achieving economic independence. This pesantren avoids consumptive debt, has a strong belief in running a business, and manages various business units as a form of long-term investment. Although cash flow management is still a challenge, Islamic boarding schools continue to strive to improve financial management and involve internal human resources and the surrounding community. In addition, pesantren shows strong mental readiness in facing financial challenges by continuing to innovate and find solutions to support the economic sustainability of pesantren.
