

Abstract

Shofiana, I. 100511100066. ***Reading Typical Archetypal Characters in Neil Gaiman's. Stardust.*** Thesis. English Study Program of the Faculty of Social and Cultural Sciences, University of Trunojoyo Madura.
Advisor: Rif'ah Inayati, S.S, M.A.

The aim of this study was to explain the portrayals of archetypal characters based on C. G Jung theory in *Stardust* novel by Neil Gaiman. *Stardust* tells about adventure and love that was experienced by Tristran. Tristran was a young man who had a journey to find a fallen star.

This Study used Mythological and Archetypal theory was based on C.G Jung which focused on archetypal characters such as: the Shadow, the Guide and the Persona. The data analysis of this research used qualitative method by Denzin and Lincoln. Methods of data collection was done by collecting, displaying, and making conclusion or verification of the data.

The result of this study found figures in *Stardust* novel represent the Jungian archetypal: Victoria forester as the Trickster and the Lilim as the Witches who represented the shadow, the little hairy man, Unicorn, and tree represents the Guide, The last was Tristran as the Hero who represented Persona,

Key Words: Characters, Archetype, and Fantasy.
