ABSTRAK

Tujuan penelitian pengembangan ini untuk mengetahui kevalidan, kemenarikan, dan keefektifan media pembelajaran *Pop Up Book* Sistem Pernapasan Manusia pada muatan IPAS Bab 5 Topik A Kelas V di UPTD SDN Gili Timur 2. Penelitian pengembangan ini menggunakan model ADDIE yang terdiri dari 5 tahapan, yaitu *Analysis, Design, Development, Implementation, dan Evaluation*. Penelitian pengembangan ini menggunakan teknik pengumpulan data berupa observasi, wawancara, angket, dan tes hasil belajar ranah kognitif siswa. Kevalidan media pembelajaran *Pop Up Book* Sistem Pernapasan Manusia diperoleh dari validator ahli media sebesar 94,66% dengan kategori sangat valid, ahli materi 82,22% dengan kategori sangat valid, dan ahli desain pembelajaran 82,22% dengan kategori valid. Kemenarikan media pembelajaran *Pop Up Book* Sistem Pernapasan Manusia diperoleh dari angket respon siswa kelompok kecil sebesar 89,14%, dari angket respon guru kelompok kecil sebesar 96%, dari angket respon siswa kelompok besar sebesar 93,28%, dan angket respon guru sebesar 96%. Keefektifan media pembelajaran *Pop Up Book* Sistem Pernapasan Manusia diperoleh dari hasil observasi aktivitas guru pada pembelajaran 1 dan 2 sebesar 94% dan 96% dengan kategori sangat aktif, hasil observasi aktivitas siswa pada pembelajaran 1 dan 2 sebesar 90% dan 95% dengan kategori sangat aktif, serta hasil belajar ranah kognitif siswa sebesar 100% dengan kategori tercapai. Berdasarkan hasil penelitian maka media pembelajaran *Pop Up Book* Sistem Pernapasan Manusia berada pada kategori sangat valid, sangat menarik, dan sangat efektif digunakan pada kelas V UPTD SDN Gili Timur 2.

Kata Kunci: Media pembelajaran, *Pop Up Book*, Sistem Pernapasan Manusia

Alfiyda Izzatur Rasyidiyah. 2025. *Development of Pop Up Book Learning Media for Human Respiratory System in Grade V at UPTD SDN Gili Timur 2*. Thesis, Elementary School Teacher Education Study Program, Faculty of Teacher Training and Education, Trunojoyo University Madura. Supervisor: Dr. M. Fadlillah., M.Pd.I

ABSTRACT

The purpose of this development research is to determine the validity, attractiveness, and effectiveness of the human respiratory system pop-up book learning media on the content of science chapter 5 topic A class V at UPTD SDN Gili Timur 2. This development research uses the ADDIE model which consists of 5 stages, namely analysis, design, development, implementation, and evaluation. This development research uses data collection techniques in the form of observation, interviews, questionnaires, and cognitive domain learning outcome tests for students. The validity of the human respiratory system pop-up book learning media was obtained from the media expert validator of 94,66% with a very valid category, material experts 82.22% with a very valid category, and learning design experts 82.22% with a very valid category. The attractiveness of the human respiratory system pop-up book learning media was obtained from the small group student response questionnaire of 89.14%, from the small group teacher response questionnaire of 96%, from the large group student response questionnaire of 93.28%, and the teacher response questionnaire of 96%. The effectiveness of the human respiratory system pop-up book learning media was obtained from the results of observations of teacher activities in learning 1 and 2 of 94% and 96% with the very active category, the results of observations of student activities in learning 1 and 2 of 90% and 95% with the very active category, and the results of students' cognitive learning were 100% with the achieved category. Based on the results of the study, the human respiratory system pop-up book learning media is in the very valid, very interesting, and very effective category for use in class V UPTD SDN Gili Timur 2.

Keywords: *Learning media, Pop Up Book, Human Respiratory System*
