

Novita Risma Pratama. 2023. *Pengaruh Pemberian Punishment Dan Reward Terhadap Motivasi Belajar Siswa di SD Negeri 1 Getas*. Skripsi, Program Studi Pendidikan Guru Sekolah Dasar. Fakultas Ilmu Pendidikan, Universitas Trunojoyo Madura. Pembimbing : Umi Hanik, S.Pd., M.Pd.

ABSTRAK

Tujuan penelitian ini adalah untuk mengetahui pengaruh dari adanya pemberian *punishment* dan *reward* terhadap motivasi belajar siswa di SD Negeri 1 Getas. Penelitian ini menggunakan metode *Kuantitatif*. Populasi penelitian yaitu semua siswa di SD Negeri 1 Getas. Pengambilan sampel menggunakan teknik *nonprobability sampling* jenis *purposive sampling*. Sampel penelitian ini sebanyak 51 siswa. Data dikumpulkan menggunakan kuesioner skala *punishment*, skala *reward*, dan skala motivasi belajar. Metode analisis data yang dilakukan dengan menggunakan uji *regresi linear berganda*, dengan bantuan *SPSS Statistics 23.0 For Windows*. Hasil penelitian ini menunjukkan pengaruh *variabel punishment* dan *reward* terhadap motivasi belajar diperoleh hasil sebesar $r = 0,868$. *R Square* sebesar 0,620, dengan *signifikansi* sebesar 0,000 ($0,000 < 0,05$), hal tersebut membuktikan terdapat pengaruh positif antara *punishment* dan *reward* terhadap motivasi belajar, artinya hipotesis penelitian diterima, adanya pengaruh dari pemberian *punishment* dan *reward* terhadap motivasi belajar siswa di SD Negeri 1 Getas.

Kata kunci : *punishment*, *reward*, dan motivasi belajar.

Novita Risma Pratama. 2023. *The Effect of Giving Punishment and Rewards on Student Learning Motivation at SD Negeri 1 Getas*. Thesis, Elementary School Teacher Education Study Program. Faculty of Education, Trunojoyo University, Madura. Advisor : Umi Hanik, S.Pd., M.Pd.

ABSTRACT

The purpose of this study was to determine the effect of *punishment* and *reward* on students' learning motivation at SD Negeri 1 Getas.

This research uses *Quantitative* method. The research population is all students at SD Negeri 1 Getas. Sampling using *nonprobability sampling* technique *purposive sampling* type. The sample of this research is 51 students. Data was collected using a questionnaire scale of *punishment*, *reward* scale, and learning motivation scale. The data analysis method was carried out using *multiple linear regression* tests, with the help of *SPSS Statistics 23.0 For Windows*. The results of this study indicate the effect of punishment and reward variables on learning motivation obtained by $r = 0.868$. *R Square* is 0.620, with a *significance* of 0.000 ($0.000 < 0.05$), this proves that there is a positive influence between *punishment* and *reward* on learning motivation, meaning that the research hypothesis is accepted, there is an influence of punishment and reward on student learning motivation at SD Negeri 1 Getas.

Keywords: *punishment*, *reward*, and learning motivation.
