

ABSTRAK

ANNA NORA FITRI, NIM 130521100049, Program Studi Sosiologi, Fakultas Ilmu Sosial dan Ilmu Budaya, Universitas Trunojoyo Madura. Skripsi ini tentang Peran Ganda Istri Pekerja Buruh Pabrik (Studi Kasus Pada Perempuan Yang Bekerja di Pabrik Keripik “Turbo sakti”) di bawah bimbingan Dr. Dra Sri Hidayati, M.Si.

Tujuan dari penelitian ini adalah untuk mengetahui secara mendalam dan terperinci mengenai informasi mengapa perempuan melakukan peran ganda serta bagaimana cara membagi waktu antara dua peran yang berbeda. Penelitian ini bersifat deskriptif kualitatif. Peneliti menggali informasi di lapangan dengan menggunakan metode wawancara mendalam, observasi, dan dokumentasi. Penentuan informan didalam penelitian ini menggunakan kriteria (*purposive sampling*). Data yang didapat dianalisa dengan menggunakan reduksi data, penyajian data dan kesimpulan. Data diperiksa keabsahan dengan menggunakan triangulasi sumber. Teori yang digunakan dalam penelitian ini adalah teori Tindakan Sosial. Lokasi penelitian berlokasi di Desa Manding Kecamatan Manding.

Hasil penelitian menunjukkan bahwa istri melakukan peran ganda dikarenakan tidak adanya penghasilan tetap yang diperoleh oleh suami. Istri mengambil tindakan sebagai pekerja buruh pabrik dengan alasan memperoleh upah lalu digunakan untuk kebutuhan hidup keluarga. Penghasilan yang diperoleh oleh istri sangat berpengaruh didalam keluarganya khususnya dalam memperbaiki kondisi ekonomi keluarga. Istri yang sibuk bekerja tetap menjalankan peran domestik dengan baik, namun bagi perempuan yang memiliki anak balita melakukan peran ganda merupakan beban berat yang harus dijalankan. Istri selain berperan ganda di satu sisi menjalankan perannya sebagai ketua pokok-pokok kerja PKK di desanya.

Kata Kunci : Peran Ganda, Istri Pekerja Buruh Pabrik

ABSTRACT

ANNA NORAFITRI, NIM 130521100049, Sociology Study Program, Faculty of Social and Cultural Sciences, University of Trunojoyo Madura. This Research about, The Multiple Roles of Factory Workes Wives (The Case Study on Women Factory of Working in the “Turbo Sakti” Chips in District Sumenep) Advisor: Dr. Dra Sri Hidayati, M.Si.

The purpose of this research to know in depth and detail about information why women doing multiple roles and how to divide the time between multiple diffrent roles. This research is descriptive qualitative. The researchers dig an information in the field by using interview method, observation, and documentation. The determination of informants in this research using a criteria (purposive sampling). The data obtained were analyzed by using reduction data, data presentation and conclusion. Data is checked for validity using source triangulation, the theory used in this research is located in Manding District.

The results of this research to showing that the wife doing a multiple roles because there is no earned fixed income by the husband as the head of the family in charge of earning a living for his family. The increasing demands of living expenses are the cause of wives doing multiple roles. Earned income by the wife finally made as the main income in her family. The busyness of the wife to become a factory worker makes the time to meet with her family is very limited. But from that role, the role in taking care of family affairs remains to be the most important priority, although for the wife who has a children under five to runs a mltiple roles is a heavy burden that must be executed. With the wife working as factory workers finally able to change the economic conditions of the family more better because the wages earned can be used for the cost of children who are under five and are currently taking school education. From a social point of view with a working wife it proves to be able to interact widely with others. The division of roles in the domestic sector between husband and wife is also run in a balanced way means that they share a role for home affairs. Wife in addition to double role, also runs his role as chairman of PKK work in his village.
