### ABSTRAK

Tujuan penelitian ini adalah untuk mengetahui proses penerapan pendidikan karakter peduli lingkungan pada siswa kelas V di SDN Padelegan 1 pada siswa di SDN Padelegan 1 Kecamatan Pademawu Kabupaten Pamekasan. Penelitian ini menggunakan penelitian kualitatif dengan metode studi kasus. Populasi dalam penelitian ini adalah siswa kelas VA dan siswa kelas VB SDN Padelegan 1 Kecamatan Pademawu Kabupaten Pamekasan. Teknik *Sampling* yang digunakan pada penelitian ini adalah teknik *non-probability sampling* jenis *purposive sampling*. Data dikumpulkan dengan menggunakan metode wawancara, observasi, dan dokumentasi. Terdapat lima indikator yang masuk dalam penerapan karakter peduli lingkungan di SDN Padelegan 1. Berikut indikator karakter peduli lingkungan yang sesuai dengan indikator yang ada di SDN Padelegan 1 sebagai pendukung penerapan karakter peduli lingkungan pada siswa. 1) Pembiasaan memelihara kebersihan dan kelestarian lingkungan sekolah, 2) Ketersediaan sarana dan prasarana, 3) melakukan pembiasaan memisahkan jenis sampah organik dan anorganik, 4) penugasan pembuatan kompos dari sampah organik, 5) memrogramkan cinta bersih lingkungan. Analisis sikap siswa yang telah dilakukan oleh peneliti berdasarkan dengan indikator siswa kelas tinggi. Dapat disimpulkan bahwa hampir keseluruhan indikator siswa kelas tinggi yang digunakan dalam penelitian yang dilakukan sesuai. Hasil pembahasan menyebutkan bahwa hampir keseluruhan siswa kelas V sudah diajarkan untuk menerapkan karakter peduli lingkungan.

**Kata Kunci:** Karakter peduli lingkungan, Sikap peduli lingkungan

Shilvi Dwi Susanti. 2023. *The Character of Caring for the Environment in Class V Students at Elementary School of Padelegan 1, Pademawu District, Pamekasan Regency*. #### ABSTRACT

*The purpose of this study was to find out the process of implementing environmental care character education for fifth grade students at Elementary School of Padelegan 1 for students at Elementary School of Padelegan 1, Pademawu District, Pamekasan Regency. This study uses qualitative research with a case study method. The population in this study were VA class students and VB class students at Elementary School of Padelegan 1, Pademawu District, Pamekasan Regency. The sampling technique used in this study was a non-probability sampling technique with purposive sampling. Data was collected using interview, observation, and documentation methods. There are five indicators that are included in the application of environmental care characters at Elementary School of Padelegan 1. The following are indicators of environmental care characters that are in accordance with the indicators at Elementary School of Padelegan 1 as a supporter of the application of environmental care characters to students. 1) Getting used to maintaining the cleanliness and preservation of the school environment, 2) Availability of facilities and infrastructure, 3) getting used to separating types of organic and inorganic waste, 4) assignment of making compost from organic waste, 5) program to love a clean environment. Analysis of student attitudes that have been carried out by researchers based on indicators of high class students. It can be concluded that almost all of the high grade student indicators used in the research were appropriate. The results of the discussion stated that almost all of the fifth grade students had been taught to apply the character of caring for the environment.*
