Ikhwanudin, H.130511100137. *A Study of Enantiosemy in Jakarta Globe Online News*. Thesis. English Study Program of The Faculty of Social and Cultural Sciences, University of Trunojoyo Madura. Advisor: Iqbal Nurul Azhar, S.S., M.Hum.

This study focuses on the study of enantiosemy found in Jakarta Globe Online news. This study is designed to explain the enantiosemy words which are taken in Jakarta Globe Online News. This study also explains the factors behind the existence of enantiosemy.

In addition, this study uses two theories to analyze the data. Those are Ales Klegr (2013) to analyze the types of enantiosemy and Ogneva S.V (2016) to analyze the factors behind the existence of enantiosemy. Moreover, this study uses a qualitative research to obtain the data because the data are in the form of words. The data of enantiosemy is taken from Jakarta Globe Online. The method of collecting the data in this study is observation method through note taking technique. The writer uses interactive data analysis to analyze the data.

In the findings, the writer found 15 data. The data analysis reveals the findings covering the formulated research question. Firstly, the data are classified into seven types of enantiosemy. There are 2 data belong to Collocational, 3 data belong to Irony, 2 data belong to Anti-Irony, 4 data belong to Converse, and 4 data belong to Non-Sytematic enantiosemy. The writer finds no data for directional and euphemistic enantiosemes. Secondly, the writer also categorizes the data into 4 factors behind the existence of enantiosemy. The writer finds 3 data belong to speech factor, and 12 data belong to lexical factor. The writer finds no data for grammatical and phraseological factor.
