Septian Dwi Cahyadi (140541100072) Jealousy of Wife to Husband Having Cow as Bull Race. Thesis. Program Study of Psychology Faculty of Social and Humanities, University of Trunojoyo Madura. 2018. xv + 102 Pages + 14 Appendix.

This research's aims to determine the jealousy experienced by a wife whose husband has a cow as a bullrace. This research used a qualitative phenomenological approach based on purposive sampling technique with three wives whose husbands have cow as a bullrace as the subject of research. Methods of data retrieval are done by semi-structured interview with data analysis *Miles and Hubberman's* techniques and Triangulation time as data validity. The result of this research say that the jealousy of the wife can be known from the 3 components of Jealousy; 1.) The Cognitive Component explains that wife has thought is that the husband is more affectionate to his cow compared to his wife and husband who is concerned with his cow compared to his wife, 2.) Emotional Components explains that wife feel angry and often feel annoyed because her husband is too concerned and put his cow's interests ahead of his wife, 3.) Behavioral Component explains that if an angry wife swearing, yelling at the husband and not serving the husband. Subjek chooses to withhold emotions by doing activities that can ease the wife's negative emotions toward a husband who is busy taking care of his cow.

ABSTRAK

Septian Dwi Cahyadi (140541100072) Kecemburuan (Jealousy) Istri Terhadap Suami yang Memiliki Sapi Karapan. Skripsi, Program Studi Psikologi Fakultas Ilmu Sosial dan Ilmu Budaya, Universitas Trunojoyo Madura. 2018. xv +102 Halaman + 14 Lampiran

Penelitian ini bertujuan untuk mengetahui kecemburuan yang dialami seorang istri yang suaminya memiliki sapi karapan. Penelitian ini menggunakan pendekatan kualitatif fenomenologis berdasarkan teknik *purposive sampling* dengan tiga istri yang suaminya memiliki sapi karapan sebagai subjek penelitian. Metode pengambilan data yang dilakukan dengan wawancara semistruktur dengan teknik analisa data Miles dan Hubberman dan Triangulasi waktu sebagai keabsahan data. Hasil dari penelitian ini menunjukkan bahwa kecemburuan istri dapat dilihat dari tiga komponen Kecemburuan (*Jealousy*) yaitu: 1). Komponen Kognitif bahwa subjek Istri memiliki pemikiran bahwa suami lebih sayang kepada sapinya dibandingkan dengan istrinya dilihat dari suami yang perhatian kepada sapinya dibandingkan kepada istri, 2).Komponen Emosional bahwa Istri merasa marah dan sering merasa kesal dikarenakan pasangannya yang terlalu memperhatikan dan lebih mengutamakan kebutuhan sapi, 3). Komponen Perilaku yang menjelaskan bahwa apabila istri marah akan melampiaskan dengan cara mengumpat, membentak suami serta tidak melayani kebutuhan suami. Subjek memilih untuk menahan emosi dengan cara melakukan aktivitas yang dapat meredakan emosi negatif istri terhadap suami yang sibuk memperhatikan sapi karapannya.
